

## Grinder

### General Operating Instructions

- Protect yourself from *flying chips* by wearing *safety goggles or glasses* that include side protectors or a *full-face shield*
- ***Flying grinding debris is thrown out at high speed and can damage eyes and eyeglasses. Wear safety glass*** with side panels or a full face shield.
- Never make adjustments while the machine is running
- Never walk away from the grinder while it is still in motion.
- Adjust the tool support as required.
- ***Safety of yourself and those around you is your responsibility where you are working.***
